

Community  
Preventive Services  
Task Force

---

The Community Guide

The Community Guide is a collective effort of many people across many years—Community Preventive Services Task Force members and liaisons, partners, authors, researchers, staff, and friends.

We can't possibly thank everyone enough—or name every person whose contribution to the Guide makes our work possible—but please know that we sincerely express our gratitude to **everyone** associated with the Guide, past, present, and future.
